RISK MAP DASHBOARD

A color-coded, interactive map with multiple layers, including a risk rating layer and a COVID-19 layer. The COVID-19 layer provides an overview of border conditions, health infrastructure, and case trends.

COUNTRY INFORMATION

To research information about your destination including guides of overall risk on a country-by-country basis with focus on crime, natural disaster, infrastructure, political stability, health concerns, travel safety, and consular support information:

- Find the country you are interested in on the **Country Risk Reports** menu
- Select your country and click **Generate**
- Review the report online or download and save it

COUNTRY/AREA RISK LEVEL DEFINITIONS

The numeric indicator relates to an assigned risk level to a specific country/area or incident.

Minimal (1):

Negligible countrywide security risks with stable political environment, low crime rates, adequate infrastructure and minimal threats posed by health risks and/or environmental hazards.

Low (2):

Some degree of risk posed by national political environment, criminal threats that may vary by location, the presence of potentially impactful public health threats and/or environmental hazards, and/or limited infrastructure in some areas. Threats may be highly localized and not common to country at large.

Medium (3):

Serious security threats exist in country due to sensitive political environment, heightened criminality, lack of adequate infrastructure, and/or environmental hazards and/or public health risks. A heightened security posture and/or protocols may be advisable.

High (4):

The national security environment has deteriorated due to political unrest, severe criminality, degraded infrastructure, and/or the prevalence of major public health and environmental hazards.

Critical (5):

The national security environment is characterized by extreme threats due to armed conflict, rampant violent crime, the absence of infrastructure, and/or severe environmental and public health hazards.

OTHER RISK INTELLIGENCE

The portal also includes the following publications available to view or download:

- **Incident Briefs** – situation reports of major incidents that may have long-term or permanent impact on the health and safety risks associated with a region or country.
- **Daily Spot Reports** - a summary of global hot-spots or major incidents and their associated threat level.

- **Travel Risk Management Publications** – monthly intelligence periodicals and the annual global risk report
