## **English Courses offered by our Language Center (Sprachenzentrum)**

The Language Center has developed a range of English courses taught by various native speakers.

In order to take part in English courses, students need to complete a Placement Test (details below).

### **Placement Test for English HaF courses**

**Only for students who are NOT students of Anglistik at the University of Bamberg.** To attend English classes, students must take an **obligatory** placement test before the beginning of the semester. This helps us to place students in the correct level. The placement test evaluates grammar, reading, listening and vocabulary, and must be completed before FlexNow registration closes. Students who do not take the test may not be able to attend English courses this semester.

### **Description of the Placement Test**

There are a total of 100 questions in the test. The questions slowly become harder in the later

parts of the test. The time limit for the placement test is 60 minutes but students can submit the test earlier if they have finished. Students can return to any part of the test to check their answers at any point before they submit their test.

#### **Test Results**

No certificate will be issued for the completion of a placement test. The test cannot be “passed” or “failed”. Instead, after the evaluation of the test, the results will be posted on the following day in the Language Center and on the Language Center website with a score out of 100 and your CEFR level (B1, B2 etc.). When you have the confirmation of your CEFR level, you can register for a course at the correct level.

If you have taken a course in general English, you do not have to take a placement test again. If you are a student of Anglistik/English and American Studies, you do not have to take this placement test at all!

Results of the test are valid for four semesters.
